

# Employee Onboarding 90-Day Guide

|           |                                     |                |                                    |
|-----------|-------------------------------------|----------------|------------------------------------|
| Policy ID | HR-ONB-101                          | Owner          | People Operations                  |
| Effective | January 1, 2026                     | Next review    | January 1, 2027                    |
| Status    | Current                             | Classification | Internal                           |
| Audience  | New employees, managers, HR, and IT | Company        | Northstar Technologies (fictional) |

Document notice: This policy is fictional and was created for retrieval-augmented generation testing. It is not legal, tax, medical, or employment advice.

## 1. Purpose and Scope

This guide assigns onboarding responsibilities before the start date and through the first 90 days. It coordinates forms, payroll, benefits, equipment, security training, role expectations, and early feedback without replacing the underlying policies.

This policy applies across company offices and approved remote locations unless a local addendum or controlling law provides a different rule. Employees should use the current policy version and ask the listed owner when facts do not fit the standard case.

## 2. Summary of Key Rules

| Milestone     | Employee                    | Manager                        | Support teams            |
|---------------|-----------------------------|--------------------------------|--------------------------|
| Before day 1  | Complete profile and forms  | Confirm schedule               | HR and IT prepare access |
| Day 1         | Attend orientation          | Review role and week-one goals | IT issues equipment      |
| First 30 days | Complete mandatory training | Provide weekly feedback        | HR confirms enrollment   |
| Days 31-90    | Demonstrate role basics     | Review goals at 60 and 90 days | Support as needed        |

## 3. Before the Start Date

The employee completes the secure profile, tax forms, and bank details using approved systems. The manager confirms location, schedule, role, and first-week agenda. IT prepares standard access after receiving a complete onboarding request. Benefits elections are not completed by the manager; eligible employees receive separate enrollment instructions.

## 4. First Day and First Week

New employees attend orientation, review conduct and security expectations, receive role-required equipment, and verify email, chat, HR portal, and core application access. Managers introduce key contacts and agree on first-week priorities. Access problems should be reported through the IT service portal rather than by sharing credentials.

## 5. First 30 Days

Employees complete mandatory security, privacy, conduct, and workplace training. Managers hold regular one-on-one meetings and clarify performance expectations. Benefits enrollment must be completed within 30 calendar days of the start date. Employees may request recurring remote work after completing 30 days, subject to approval under the Remote and Hybrid Work Policy.

## 6. Days 31 Through 90

Managers review progress near days 60 and 90, discuss training needs, and document material expectation gaps. Successful onboarding does not require mastery of every long-term objective. Questions about pay go to Payroll, benefits to Total Rewards, leave to People Operations, and access to IT. Formal performance action follows the Performance Management Policy.

## 7. Exceptions, Records, and Questions

Exceptions must be lawful, documented, limited in duration, and approved by the policy owner plus any other owner named in the relevant section. Approval for one case does not change the policy for other employees. Records are retained according to the company retention schedule and any legal hold.
