

# Learning and Mandatory Training Policy

|           |                                      |                |                                    |
|-----------|--------------------------------------|----------------|------------------------------------|
| Policy ID | HR-LRN-101                           | Owner          | Learning and Development           |
| Effective | January 1, 2026                      | Next review    | January 1, 2027                    |
| Status    | Current                              | Classification | Internal                           |
| Audience  | Employees, contractors, and managers | Company        | Northstar Technologies (fictional) |

Document notice: This policy is fictional and was created for retrieval-augmented generation testing. It is not legal, tax, medical, or employment advice.

## 1. Purpose and Scope

This policy defines mandatory onboarding and annual training, role-specific certifications, completion deadlines, accessibility, time recording, and consequences of overdue training. Training assignments vary by role, location, and system access.

This policy applies across company offices and approved remote locations unless a local addendum or controlling law provides a different rule. Employees should use the current policy version and ask the listed owner when facts do not fit the standard case.

## 2. Summary of Key Rules

| Training             | Audience              | Initial deadline | Renewal               |
|----------------------|-----------------------|------------------|-----------------------|
| Security awareness   | All workforce members | 7 calendar days  | Annually              |
| Workplace conduct    | All workforce members | 30 calendar days | Every 2 years         |
| Privacy fundamentals | Data-handling roles   | 14 calendar days | Annually              |
| Manager essentials   | New people managers   | 60 calendar days | One time plus updates |

## 3. Assignment and Completion

Assignments are based on worker type, role, location, and access. Employees receive notices through the learning portal and should complete training during working time. Managers must provide reasonable time and should not direct employees to complete required courses off the clock. A technical issue should be reported before the deadline when practicable.

## 4. Accessibility and Alternatives

Employees may request captions, transcripts, additional time, keyboard-accessible content, or another reasonable format. Where a course cannot be made accessible promptly, Learning and Development arranges an equivalent method. Accessibility requests are not treated as late completion and should not require disclosure to the broader team.

## 5. Overdue Training

The learning portal sends reminders before and after a deadline. Managers receive escalation notices for overdue assignments. Access to a sensitive system may be suspended when required training is overdue. Repeated or deliberate failure may be addressed under the Performance Management Policy, considering leave, accessibility, technical issues, and other relevant circumstances.

## 6. Records and External Certifications

Completion records are retained in the learning system. Employees should not upload Restricted information as course evidence. Reimbursement for an external certification requires advance approval and follows the Expense Reimbursement Policy. A repayment agreement may apply only when separately disclosed and lawful.

## 7. Exceptions, Records, and Questions

Exceptions must be lawful, documented, limited in duration, and approved by the policy owner plus any other owner named in the relevant section. Approval for one case does not change the policy for other employees. Records are retained according to the company retention schedule and any legal hold.
